Package: Medieval Rural Environments - Stylized Fantasy RPG Bundle
Publisher: Holotna
Created With: Unity 6000.3.8f1
Supported Pipelines: URP, HDRP

Scene Lighting

Lighting is not baked by default in the outdoor and indoor scenes. Open the Lighting window and click Generate Lighting to bake the lighting. This process may take some time.

HDRP Setup

The scene may appear pink when first opened in HDRP. To fix this, import the HDRP.unitypackage located in the root folder. After importing, you may need to reopen the scene for all materials to display correctly.
